

The NWS Burlington VT is offering these online courses focused on observing and reporting warm season weather hazards. We will host multiple sessions this May, and you are welcome to join whichever is most suitable to your schedule. This is a training session for those interested in becoming certified Skywarn® Spotters or are looking for a refresher. Registration is free and open to all.

We will be using GoToWebinar, and the registration form can be accessed through the following link: <https://attendee.gotowebinar.com/rt/6835174937334036319>

Session #1 will be held Sunday, May 7th from 7 PM to 8:30 PM EDT

Session #2 will be held Thursday, May 11th from 7 PM to 8:30 PM EDT

Session #3 will be held Friday, May 12th from 7 PM to 8:30 PM EDT

Note additional sessions may be scheduled later in the month depending on availability.

We will discuss the following topics:

- What is Skywarn? What does it mean for us?
- Overview of thunderstorm science and forecasting
- Storm types and convective warnings
- Safety and reporting severe weather
